## InvoSystems Partners with and Supports ISHRAE - ACREX 2025, Bengaluru, BIEC.

InvoSystems Singapore, through its PlanetSustain mobile app, has partnered with ISHRAE – ACREX 2025, Bengaluru to promote environmental awareness and sustainability within the HVAC industry. The collaboration aims to engage visitors, delegates, and exhibitors at ACREX 2025 by encouraging them to use the PlanetSustain mobile app to track and reduce their carbon footprint induced by consumption during the event.

The 24th edition of ACREX INDIA in 2025 will focus on cutting-edge advancements in technology within the HVAC (Heating, Ventilation, and Air Conditioning) sector, which plays a critical role in shaping a more sustainable and energy-efficient future. By integrating smart solutions and environmentally conscious practices, ACREX 2025 seeks to pave the way for innovations that contribute to a better world.

This initiative not only helps individuals become more aware of their ecological footprint but also empowers them to take actionable steps toward a greener future. Invosystems' efforts align with its broader mission to drive sustainability in the HVAC industry and beyond, making it easier for people to contribute to positive environmental change.

In line with the event's green initiatives, participants, both exhibitors and visitors, are encouraged to actively engage with the mobile app to measure their environmental impact, make informed choices, and take steps towards minimizing their carbon emissions. This partnership represents a forward thinking approach to integrating sustainability into large-scale industry events, setting a new standard for environmental responsibility in the sector.

With the collective efforts of ISHRAE and Invosystems Singapore, ACREX 2025 is not only set to showcase the latest HVAC technologies but also lead the way in fostering a culture of sustainability that can have a lasting positive effect on the global environment.

# Challenges, Prizes & Certificates

To promote environmental sustainability awareness among visitors, delegates, and exhibitors, Invosystems has introduced a series of engaging challenges, including quizzes, surveys, and energy reduction activities.

These initiatives are designed to encourage participation and inspire responsible consumption.

By offering these interactive challenges, Invosystems aims to engage attendees in using the PlanetSustain mobile app to track their carbon footprint and adopt sustainable practices.

The PlanetSustain mobile app allows users to track and monitor their energy usage and other household consumption to reduce their carbon footprint induced environmental impact, fostering a culture of sustainability throughout the event.
